

First of all, let me just say thank you, for your interest in our product!

We are a very small company (12 total people) with a big name. ☺

We take a lot of pride in our product and our customer service:

“When considering upgrading the exhaust system on my K8 750, Taylor Made Racing underbelly exhaust system was my first choice, due to its unique styling and their "no fuss warranty". Thanks to the TMR slash cut carbon fiber trim design, it not only significantly increased the performance and sound, it gave it that deep growl it was lacking, also the sexy sleek look I desired. Definitely the best total package system on the market. Thanks to everyone at TMR for making my dreams come true.” Richard Bene: Canada

We have some products which did not pass Quality Control Inspection due to minor character flaws. It would be a shame to throw them away. I have pasted a few images below, to give you a better idea of what I’m referring to. These flaws are very minimal and often times located in an area which is not easily noticeable once installed. With the right decal placement or painter, you could eliminate the flaw completely! These discounts will not be found anywhere else.

The products we have available are:

| Qty Available |          | Suzuki GSXR 600/750 2006/2007         | Retail     | Special! |
